## Translation of the original Operating Instructions

### Information about these operating instructions

You made a good choice with the purchase of this product **PondoStar LED Set 1 / Set 3**.

Prior to commissioning the unit, please read the instructions of use carefully and fully familiarise yourself with the unit. Ensure that all work on and with this unit is only carried out in accordance with these instructions.

Adhere to the safety information for the correct and safe use of the unit.

Keep these instructions in a safe place! Please also hand over the instructions when passing the unit on to a new owner.

### Symbols used in these instructions

The symbols used in this operating manual have the following meanings:

#### Risk of injury to persons due to dangerous electrical voltage

This symbol indicates an imminent danger, which can lead to death or severe injuries if the appropriate measures are not taken.

#### Risk of personal injury caused by a general source of danger

This symbol indicates an imminent danger, which can lead to death or severe injuries if the appropriate measures are not taken.

Important information for trouble-free operation.

A Reference to one or more figures. In this example: Reference to Fig. A.

### Scope of delivery

<input type="checkbox"/> A	PondoStar LED Set		Description
	1	3	
	Quantity	Quantity	
1	1	3	LED spot including bulb
2	1	1	Transformer

### Intended use

PondoStar LED Set 1 / Set 3, referred to in the following as "unit", may only be used as specified in the following:

- For use in water fountain systems and ponds.
- For use above and under water.
- Operation under observance of the technical data.

## Safety information

Hazards to persons and assets may emanate from this unit if it is used in an improper manner or not in accordance with its intended use, or if the safety instructions are ignored.

This unit can be used by children from the age of 8 and by persons with physical, sensory or mental impairments or lack of experience and knowledge, as long as they are supervised or instructed on how to use the unit safely and are able to understand the potential hazards. Do not allow children to play with the unit. Do not allow children to clean or maintain the unit without close supervision.

### Hazards encountered by the combination of water and electricity

- The combination of water and electricity can lead to death or severe injury from electrocution, if the unit is incorrectly connected or misused.
- Prior to reaching into the water, always switch off the mains voltage to all units used in the water.

### Correct electrical installation

- Electrical installations must meet the national regulations and may only be carried out by a qualified electrician.
- A person is regarded as a qualified electrician, if, due to his/her vocational education, knowledge and experience, he or she is capable of and authorised to judge and carry out the work commissioned to him/her. This also includes the recognition of possible hazards and the adherence to the pertinent regional and national standards, rules and regulations.
- For your own safety, please consult a qualified electrician.
- The unit may only be connected when the electrical data of the unit and the power supply coincide. The unit data is to be found on the unit type plate or on the packaging, or in this manual.
- Ensure that the unit is fused for a rated fault current of max. 30 mA by means of a fault current protection device.
- Extension cables and power distributors (e. g. outlet strips) must be suitable for outdoor use.
- Ensure that the power connection cable cross section is not smaller than that of the rubber sheath with the identification H05RN-F. Extension cables must meet DIN VDE 0620.
- Protect the plug connections from moisture.
- Only plug the unit into a correctly fitted socket.

### Safe operation

- Never operate the unit if either the electrical cables or the housing are defective!
- Do not carry or pull the unit by its electrical cable.
- Route cords/hoses/lines in a way that they are protected against damage, and ensure that they do not present a tripping obstacle.
- Only open the unit housing or its attendant components, when this is explicitly required in the operating instructions.
- Only execute work on the unit that is described in this manual. If problems cannot be overcome, please contact an authorised customer service point or, when in doubt, the manufacturer.
- Only use original spare parts and accessories for the unit.
- Never carry out technical modifications to the unit.
- The power connection cables cannot be replaced. When the cable is damaged, the unit or the component needs to be disposed of.
- Only operate the unit with the supplied transformer.
- Keep the socket and power plug dry.
- The power pack and the plug connectors of the power cables supplied are not water-tight, but only rain and splash-proof. Do not route or fit in the water.

## Installation and connection

B, C

- The unit can be placed submerged or dry.
- For installation above water: Ensure a safety distance of at least 50 cm from combustible material.  
Fire hazard: Do not cover the unit!
- Install the transformer at a minimum safety distance of 2 m from the water.

How to proceed:

1. Position the unit such that it does not present a hazard to anyone and the lamps are tilted as desired.
2. Connect the plug of the spotlight connection cable to the socket on the transformer and hand-tighten the union nut.

## Start-up

**Attention!** Sensitive electrical components.

**Possible consequence:** The unit will be destroyed.

**Protective measure:** Do not connect the unit to a dimmable power supply.

**Attention! Dangerous electrical voltage.**

**Possible consequences:** Death or severe injury.

**Protective measures:**

- Electrical units and installations with a rated voltage of  $U > 12$  V AC or  $U > 30$  V DC located in the water: Isolate the units and installations (switch off and disconnect from the power supply) before reaching into the water.
- Isolate the unit before starting any work.
- Secure the unit to prevent unintentional switching on.

**Switching on:** Insert the power plug of the transformer into the socket.

- Check the function of the spotlights.

**Switching off:** Disconnect the transformer power plug.

## Remedy of faults

Malfunction	Cause	Remedy
Lamp does not light up	Power supply interrupted	Check power supply
	Bulb defective	Replace bulb
Luminosity decreases	Lamp glass soiled	Clean
	The brightness of the bulb reduces as the operating time increases	Replace bulb
Water inside the spotlight housing	Seal defective	Check sealing rings and replace, if necessary

## Maintenance and cleaning

**Attention! Dangerous electrical voltage.**

**Possible consequences:** Death or severe injury.

**Protective measures:**

- Electrical units and installations with a rated voltage of  $U > 12 \text{ V AC}$  or  $U > 30 \text{ V DC}$  located in the water: Isolate the units and installations (switch off and disconnect from the power supply) before reaching into the water.
- Isolate the unit before starting any work.
- Secure the unit to prevent unintentional switching on.

## Cleaning the unit

If necessary, clean the unit with clear water using a soft brush.

## Replacing the bulb

**PondoStar LED Set 1 / Set 3**

Not possible.

## Disposal

Do not dispose of this unit with domestic waste! For disposal purposes, please use the return system provided. Disable the unit beforehand by cutting off the cables.

## Guarantee conditions

PfG grants a 2 year guarantee from the date of sale on proven material and manufacturing faults. Prerequisite for our guarantee is the presentation of the purchase receipt. Our guarantee will become null and void if the unit is misused, electrically or mechanically damaged by inappropriate use and improper repair by non-authorised workshops. Repairs are reserved for workshops authorised by PfG or by PfG itself. In the case of warranty claims, please return the defective unit or part freight paid to PfG together with a description of the fault and the purchase receipt. PfG reserves the right to invoice repair costs. PfG is not liable for transport damage. Any damage must be claimed against the carrier. Further claims of whatever type, especially consequential damage, are excluded. This guarantee does not affect the final customer's claims against the dealer.
